**MEMORANDUM**

TO: Vice Presidents and Deans

FROM: Amy S. Sebring

DocuSigned by:  
  
B61A5FA226E94C5...

SUBJECT: FY26 University Budgets

Attached for your review are the University's FY26 operating and capital budgets. As in prior years, this document displays and describes all the components of Virginia Tech's consolidated operating budget. It also provides the major components of the Educational and General (E&G) Budgets for the University Division and the Cooperative Extension/Agricultural Experiment Station Division, including detailed schedules showing the computation of the E&G budgets by major expense category are also included. In addition, this document displays the capital project authorizations and actions of the 2025 General Assembly as well as an estimate of the current available and unspent capital authorizations carried forward to FY26 from FY25.

Please note that Tim Hodge's transmittal letter describes the budget process and decisions made during the budget development process in more detail. In most cases, the approved new initiatives are assigned directly to a college or vice-presidential area. In some instances, final decisions are still pending regarding the actual distribution of funds. The funding for these initiatives will be distributed as decisions are finalized.

The Office of Budget and Financial Planning is reviewing these budgets with your fiscal officers. A copy of this document is available on-line at [www.obfp.vt.edu](http://www.obfp.vt.edu).

It is important to note that the FY26 budget assumes we maintain full base funding from the state general fund and that federally sponsored research remains at levels comparable to FY25. It also assumes that enrollments, including international students, hold steady at projected levels.

To date, our enrollment figures remain strong. Our sponsored research budget remains on track or slightly ahead of budget, and our new awards reflect historical trends. At the

state level, revenue projections continue to exceed projections with substantial reserves to weather some period of economic disruption. And yet, given the high level of uncertainty, we are watching those trends closely.

I appreciate your time and cooperation as we worked through the FY26 budget development process. Please let me know if you have any questions on the approved budget or any questions as we move forward.

## MEMORANDUM

TO: Cyril R. Clarke  
Amy S. Sebring

FROM: Tim Hodge 9FF78947BE5E4F0...

SUBJECT: FY26 Operating and Capital Outlay Budgets

Consistent with the annual budget review process and the prioritizations set forth by you and your teams, the Office of Budget and Financial Planning has completed the university's annual operating and capital outlay budgets for fiscal year 2025-26 (FY26). This document, called the Authorized Budget Document (ABD), provides a comprehensive view of the university's FY26 budgets.

### Contents

The Authorized Budget Document is composed of the following sections:

#### Attachment

- I. Consolidated Internal Budget
- II. FY26 Appropriations
- III. Summary of Educational and General Revenue and Expenditure Budgets and New Initiatives
- IV. University Division (Agency 208) Educational and General (E&G) Expense Budget
- V. Cooperative Extension/Agricultural Experiment Station Division (Agency 229) E&G Expense Budget
- VI. Other Program Operating Budgets
- VII. Position Allocations
- VIII. Equipment Trust Fund and Equipment Enhancement Allocations
- IX. Capital Outlay Project Authorizations for FY26

## **The Budget Development Process**

The university develops the annual budget consistent with the priorities set forth in the university's strategic plan, which serves as the framework for enacting the university's mission. The most recent six-year academic, enrollment, and financial plans approved by the Board of Visitors in Fall 2024 provide the overarching context for the development of the annual budget. Those priorities in addition to items identified through the Critical Needs Request are prioritized within available resources, including incremental General Fund support from the Commonwealth of Virginia, incremental tuition and fee revenue based on BOV-approved rate changes and changes in student enrollment, and internal reinvestments. Each initiative has been reviewed for alignment with the strategic plan as informed by the Beyond Boundaries work and strategic initiative planning, Partnership for Incentive Based Budget (PIBB), and analysis regarding the need for access and affordability.

## **E&G Program**

The FY26 E&G program budget development process began in Fall 2024. The Budget Office developed revenue budgets by analyzing each revenue category, e.g., General Fund, tuition, sales and services, and all other sources. This analysis included known changes for FY26, projections based on historical performance, and the legislated changes in the state General Fund appropriations. The total of these revenues establishes the total available revenue and thus the overall limitation on the amount of the expenditure budgets.

FY25 base expenditure budgets served as the starting point for the development of the FY26 base budgets by program, area, and major expenditure category. The adjustments to the original FY25 base budgets include:

1. Base budget changes made by operating units during the FY25 fiscal year prior to the university's May 31, 2025 snapshot of the base budgets in the university accounting system (Banner Finance).
2. Corrections and reallocations which net to zero in total.

The Budget Office also analyzed central costs such as fringe benefits, fixed costs, earmarks, and recoveries to identify required changes. This analysis was done in conjunction with college and division fiscal officers who manage those costs. This work, along with the revenue analysis, resulted in the overall framework for developing the FY26 E&G program budget for each agency. Within this resource framework, the Budget Office ensured that prior commitments and mandates were properly identified and reviewed as part of the process. The Office of the Executive Vice President and Provost and the Office of the Executive Vice President and Chief Operating Officer coordinated the identification of critical needs and strategic priorities to advance the university's vision. The resource allocation proposals were reviewed with the Executive Vice President and Provost,

Executive Vice President and Chief Operating Officer, and President. The key aspects of the budget were also reviewed with the university's Board of Visitors.

**Non-E&G Programs**

Non-E&G programs include auxiliary enterprises, sponsored programs, student financial assistance, private expenditures, and all other budgets. The development of the operating budgets for these programs used processes appropriate for those programs; those budgets are described in subsequent sections of this memorandum.

**Compensation**

The FY26 university budget includes a compensation program for faculty, staff, and graduate assistants. The attached operating budget includes funding for the following employee compensation actions:

- 3.00 percent faculty compensation program.
  - In addition, the university will fund the Promotion and Tenure cost for those faculty approved for Promotion and Tenure increases.
- 3.00 percent stipend increase, \$107 increase in the stipend supplement for graduate assistants, and increase stipend floor minimum to \$2,800 per month – consistent with the Board of Visitors approval.
- 3.00 percent Classified Staff salary increase. Classified Staff are defined as staff members hired before July 1, 2006 who have not subsequently converted to the University Staff system.
- 3.00 percent University Staff compensation program.

**Consolidated University Budget**

The approved FY26 annual operating revenue budgets for all programs total \$2.5 billion. Attachment I displays the consolidated operating budget, which is comprised of the following major components and amounts:

Educational and General	\$ 1.24 billion
Auxiliary Enterprises	0.52 billion
Sponsored Programs	0.48 billion
Appropriated Student Financial Assistance	0.07 billion
Other programs	0.02 billion
Private expenditures	0.15 billion

As shown in Attachment II, Virginia Tech anticipates an initial state authorization of approximately \$2.1 billion for FY26 to carry out all of its programs, based on the direct appropriations to the university. The annual internal budget (Attachment I) varies slightly from the external expenditure authorization detailed in Attachment II for several reasons, some of which increase the annual expenditure authority while others reduce the expenditure plans. For example, the Cooperative Extension/Agricultural Experiment

Station Division is authorized to spend nongeneral funds; however, that authority may not be utilized if revenue from outside nongeneral funding sources, such as the federal government, does not keep pace with state cost assignments. This authority cannot be internally budgeted unless additional revenue is identified. The university's expenditure authorization will be adjusted during FY26 when the Commonwealth transfers funds to clear the Central Appropriation. As part of restructuring, the university received "sum sufficient" authority which allows the university to increase its external nongeneral fund expenditure authorization levels if additional nongeneral fund revenue becomes available.

Each of these budgets is balanced as of July 1, 2025. The resources received for the benefit of these budget categories must be expended for those purposes and cannot be utilized to achieve other purposes. These budgets are consistent with the Board of Visitors approval in June 2025.

### **FY26 Appropriations**

As seen on page 1 of Attachment I, the FY26 General Fund allocation is estimated to be approximately \$464.8 million, an increase of approximately \$8.0 million from the FY25 revised budget. General Fund revenues will provide \$420.6 million in support for the instructional, research, and extension programs, \$40.6 million for student financial assistance and \$3.6 million for the Unique Military Activities program. Attachment II provides an analysis of the changes in the university's direct operating appropriations for FY26.

A summary of authorized capital project activity for FY26 is described in section IX.

### **Funding Analysis**

With these state resources, the state support per Virginia student will grow in FY26. Total state support per Virginia student for FY26 is projected to be 29.3 percent above the funding provided in 2001. The growth in per-student funding is a positive signal of the state's continued support of higher education and Virginia Tech. The university enrolls over 5,000 additional Virginia undergraduates as compared to fall 2004. However, adjusted for inflation, the university will receive 37.1 percent less General Fund support per student than in fiscal year 2001, as seen in Figure 1. It is important to note that this analysis presents state support in the most favorable light since it includes all General Fund resources allocated to E&G, including support for activities beyond instruction such as research and public service.

While the intent of state funding policy for higher education is to fund 67 percent of the cost of education of each Virginia resident at the institution, actual funding is less than this and has shrunk over time.

The General Fund appropriation represents 27.0 percent of the University Division's Educational and General budget, as seen below in Figure 2.

## **Educational and General Revenue and Expense Budgets**

Attachment III provides summary revenue and expense budgets for the E&G program for both agencies. The new resource allocations approved during the budget development process are detailed on separate schedules, for both base and one-time initiatives.

### **University Division (Agency 208) Educational and General Budget**

The University Division E&G expenditure budget is \$1.1 billion. Attachment IV contains schedules that display the expenditure budgets by operating unit and major expense category. It also displays the details of the calculation of the new base budgets for each category of expense. The FY26 Base Budgets Summary schedule displays the application of other adjustments to the initial FY25 base budgets. Separate columns are shown for new base initiatives and one-time initiatives. The amounts shown for new allocations that include positions also include the cost of fringe benefits in the total cost. To support these incremental initiatives, the university identified \$10.7 million of strategic reinvestment strategies and savings resulting from the Board of Visitor's March 25, 2025 resolution regarding the presidential executive order on diversity, equity, and inclusion (DEI). The continuation of support and new support for selected major initiatives is described briefly below:

The following investments were made to support university talent through the FY26 compensation programs and Virginia Tech Advantage initiatives:

- \$28,690,543 base is provided to support the 3% faculty, staff and GTA compensation program, promotion and tenure, and fringe benefit rate increases.
- \$8,508,325 base comprised of General Fund, unfunded scholarships, and tuition scholarships support is allocated for the Virginia Tech Advantage program and increases the Funds for the Future Program protection to families with incomes lower than \$115k.
- \$102,903 base and \$1,418,224 one-time is allocated to foster the Tech Talent Pipeline enrollments and sustain scholarships in the Greater Washington, DC Area.
- \$75,000 one-time is provided to the Division of Student affairs to increase capacity for reviewing accommodation requests.

The following allocations for instruction and research support Virginia Tech Global Distinction (including additional faculty positions, operating support, and initiative-specific support) and will be distributed in FY26:

- In support of enrollment growth and academic quality, \$5,857,999 base and one-time \$1,354,492 one-time is allocated to the colleges.
- \$692,210 base of self-generated resources and partnership are provided to support the Virginia Tech Carilion School of Medicine class size expansion, inflationary costs, and recruitment of a physician scientist.

- \$336,708 base is allocated for the E&G portion of increasing the minimum monthly graduate stipend to \$2,800. This allocation is inclusive of the cost of providing \$107 annually to offset increases in university assigned costs.
- \$281,016 base and \$94,701 one-time for support in the Honor's College.
- \$4,000,000 one-time E&G and Equipment Trust Fund support is provided for faculty startup in FY26.
- \$500,000 base and \$500,000 one-time support is provided to the Institute for Advanced Computing in the Greater Washington, DC area.
- \$429,774 one-time is provided to support temporary relocation during the Randolph Hall renovation.
- \$4,000,000 of Equipment Trust Fund to establish the Virginia Tech Patient Research Center at the Fralin Biomedical Research Institute (FBRI) advancing the statewide biotechnology initiative.
- \$585,973 base and \$2,274,353 one-time enhance the university investment in Health and Biomedical Sciences in Roanoke.
- \$650,000 base is provided to support expansion of health science research at the Children's National Research & Innovation Campus.
- \$4,500,000 one-time and Equipment Trust Fund to support an ARC cluster upgrade under the High Performance Computing program.
- \$695,000 of one-time and overhead is provided to support the Office of Export and Secure Research Compliance (OESRC).
- \$600,000 one-time enhances the Research division cost-share support to facilitate growth in extramurally sponsored grants and contracts.
- \$250,000 overhead is allocated to increase patent licensing through Link, License, and Launch.
- \$500,000 base and \$250,000 one-time is allocated to the Virginia Tech Transportation Institute to support operations.
- \$400,000 base and \$30,000 one-time supports centralizing the management of global education programs.
- \$481,488 base and earmarked library fee revenue is allocated to support subscription escalations in the University Libraries.
- \$50,000 one-time is provided to renovate lab space for Human Development and Family Sciences.
- \$887,000 one-time supports the VTRC-A lease.
- \$947,177 base and \$1,201,500 one-time supports university research and compliance systems.
- \$90,000 one-time is allocated in support of SACSCOC Quality Enhancement Plans.
- \$31,350 base supports the Corps leadership use of gyms.

The following investments support enabling infrastructure and capacity:

- \$1,529,269 base and \$2,031,787 one-time support for ERP stabilization and modernization efforts.
- \$1,629,148 base and \$30,000 one-time operating support for Information Technology.

- \$400,000 one-time is allocated to support Student Services Building renovations.
- \$251,918 base and \$12,000 one-time supports university legal counsel.
- \$540,049 one-time supports university software contract escalation.
- \$202,648 base and \$8,000 one-time improves the university's space management function.
- \$96,636 base expands the contracts function in Procurement.
- \$500,000 one-time is provided for campus master planning efforts.
- \$114,171 base supports multi-state/Global HR compliance.
- \$438,573 one-time supports Life, Health, and Safety projects.
- \$126,862 one-time is allocated to support Turnitin academic integrity software.
- \$160,000 base is provided for web accessibility testing in support of the Campus Accessibility Working Group.
- \$202,578 base and \$128,100 one-time enhances public safety in the Greater Washington DC area.
- \$480,000 one-time is allocated to improve pedestrian safety at high-traffic crosswalks on campus.
- \$1,600,000 one-time is provided to continue the Hokie Stone remediation program.
- \$1,000,000 of one-time is allocated to support classroom renovations.

A more detailed listing of funding items is available in Attachment III. The University Division E&G budget is balanced.

### **Cooperative Extension/Agricultural Experiment Station Division (Agency 229) E&G Budget**

The Cooperative Extension/Agricultural Experiment Station Division (CE/AES) budgets are displayed in Attachment V. Agency 229 operates Cooperative Extension and the Agricultural Experiment Station as two separate divisions, and the internal budgets maintain this distinction. This distinction is critical to meet legislative intent and reporting requirements.

The FY26 budget includes \$0.8 million for adjustments related to the state authorized compensation program and fringe benefit changes, offset by the removal of Federal carryovers in Agency 229.

### **Other Programs Operating Budgets**

The university operates four major programs other than Educational and General. Attachment VI provides the operating budgets for these programs: auxiliary enterprises, sponsored programs (grants and contracts, returned overhead, the Commonwealth's Research Initiative, Commonwealth Cyber Initiative, and other targeted General Fund allocations), graduate tuition remissions, student financial assistance, and all other programs (unique military activities, federal work study, surplus property, and local funds). The budget development processes for these programs and the changes for FY26 are described below.

### Auxiliary Enterprises

The university provides certain essential support services (e.g., Residence Halls and Dining Programs) through the operation of auxiliary enterprises. These enterprises are financially self-supporting and do not receive tuition revenue or General Fund support. The auxiliary enterprises are supported by charging for all of the services provided to cover direct costs and reimburse the E&G program for all indirect costs. Individual auxiliary budgets are established through a standard development and review process with auxiliary managers. These budgets are issued through separate budget memoranda from the Chief Operating Officer prior to the beginning of the fiscal year.

The total auxiliary revenue in FY26 will grow 7.6 percent over the original FY25 budget, with a significant portion of the increase attributable to growth in Residential and Dining Programs, Athletics, Transportation Services, Electric Services, and Student Health Services. This increase includes resources to cover state authorized compensation programs and fringe benefit changes, Intercollegiate Athletics operating support, enhancements to student health and counseling services, student programming, maintenance of existing facilities, the cost of electricity, the cost of new facilities, and transit system enhancements. As some auxiliary budgets are dependent on student fees, increases in auxiliary fees were managed with the intent to minimize the total cost of education while providing the maximum service to students.

Existing state requirements, along with the university's budgeting and financial management strategies, generally result in the establishment of breakeven budgets for the major budget components, with the exception of auxiliary enterprises. This is the case for FY26, where only the auxiliary budgets project an increase in the reserves as of June 30, 2025. The projected increase of \$17.6 million is the result of the intentional rebuilding of reserves in specific auxiliaries where expenditures in prior years created the need for restoring the reserves so that it may operate as a revolving fund. In other cases, the projected increase in reserves reflects the temporary positive impact of planning activities for new capital projects. The FY26 budget for auxiliary enterprises is also designed to ensure that the reserve levels remain in compliance with the tenants of bond covenants as well as SCHEV reserve targets.

### Sponsored Programs

The projected annual budget for Sponsored Programs is \$479.1 million, a decrease of \$46.0 million, or 8.7 percent, from the FY25 adjusted budget. The decrease in the FY26 budget is due to the realignment of \$41.3 million to Private funds, a decrease of \$6.0 million for the removal of the FY26 Patient Research Center General Fund support, and other minor technical updates. The budgets for Grants and Contracts are developed through the analysis of historic trends and projections of future activity levels.

While there are multi-faceted challenges facing federally funded research and exact outcomes are unknown, the university's FY26 budgets for Sponsored Programs are held constant with the FY25 budget levels in recognition of the current uncertainty in federally

funded grants and contracts. Once more is known, budgets will be adjusted accordingly and the board updated.

The Sponsored Programs budget is comprised primarily of grant and contract activities but also includes returned overhead, the Enterprise Fund for distance learning, and General Fund support for research. The most significant activity in this category is externally sponsored research.

Allocations of General Funds in the Sponsored Program's budget are described in Section VI, page 2.

#### Appropriated Student Financial Assistance

The projected annual budget for the appropriated Student Financial Assistance Program is \$64.4 million. This includes \$40.6 million in state General Fund support for need-based Undergraduate Scholarships, Graduate Fellowships, Soil Scientist Scholarships, and the Multicultural Academic Opportunity Program as well as estimates of General Fund support for the Two-Year College Transfer Grant Program, Virginia Military Survivors Dependents Program Stipend (for room, board, and books), and an estimate of the Pell Initiative Grant funding for FY26. The specific amounts are enacted by the General Assembly in the Appropriation Act. In addition to the FY26 General Fund scholarship allocations, the university will carryforward \$1.3 million of one-time General Fund support for undergraduate need-based scholarships allocated during the 2025 legislative session and these resources will be available to support resident undergraduate student financial aid in FY26. The projected annual nongeneral fund student financial assistance budget is \$23.8 million in FY26 and reflects the university's commitment to enhancing access and affordability through the Virginia Tech Advantage scholarship program.

#### Graduate Tuition Remissions

The university will support 2,006.50 tuition remissions of in-state tuition and library fee in FY26. This budget incorporates the candidacy status discount first implemented in FY22 and maintains the candidacy status tuition rate discount at 15%. Other student charges are not supported by this allocation. Additional details on the Tuition Remission allocations by unit are available in Section VI, page 6.

#### Private Expenditures

Beginning in FY26, to improve and streamline service to the campus community, the university will process expenditures previously paid by the Virginia Tech Foundation to support university programs. This enables the simplification of university procurement and accounts payable functions and will lead to efficiencies for purchasing departments as well as university and foundation business services teams. As a part of this new service, the university will recognize private revenues in the university budget as they are drawn from the VTF to reimburse those expenditures. The estimated budget for these activities in FY26 is \$150.0 million based on the historic trend of activity levels and will be adjusted as needed to align with actual activities each fiscal year.

#### All Other Programs

The All Other Programs component is comprised of Unique Military Activities appropriation, surplus property, federal work study program, and local funds. The annual budget for these funds is based on historical trends and projections of activity levels by program managers. These programs are funded by resources that are designated for specific purposes. For All Other Programs, the recommended FY26 budget represents an increase of \$0.2 million over the original budget for FY25.

### **Position Allocations**

The internal employment levels are allocated by position category in Attachment VII of the FY26 Authorized Budget Document. The allocations are maintained for the University and Cooperative Extension/Agricultural Experiment Station Divisions as well as other university programs. The approved position changes for FY26 have been overlaid onto the FY25 base position allocations. These incremental allocations will be loaded into the university's Position Management System (Banner Finance Funds in range V00xxx).

Graduate Assistant (GA) positions are not currently limited in number by the Commonwealth as are Graduate Teaching Assistants (GTA) and Graduate Research Assistants (GRA). As a result, GA positions are not currently included in the allocation of positions.

Attachment VII displays the allocation of positions by senior management area. These allocations are maintained in the Position Management System. While Human Resources will continue to be responsible for the operating and internal control processes related to positions, each college and vice-presidential area is responsible for managing its employment levels and remaining within authorized levels.

### **Equipment Allocations**

The university makes annual budget allocations for the Equipment Trust Fund, the equipment enhancement funds, and the Tech Talent Investment Program debt funds.

#### **Phase 39 of the Equipment Trust Program**

The state allocation to the university for Phase 39 of the Equipment Trust Program in FY26 is \$10,331,639. Consistent with the FY25 ETF model which incorporated updates to better align equipment allocations with the Virginia Tech Global Distinction Initiative, the use of the 2004 allocation model for the distribution of Equipment Trust Fund is continued and includes support for high performance computing and strategic research equipment. The college allocation model utilizes four drivers to set the baseline allocation: filled faculty FTEs, lab weighted student credit hours delivered, Ph.D. awards, and equipment expenditures (less ETF). The model also includes a fifth variable, equipment inventory performance, as a bonus element. The performance target for the equipment inventory was set at 95.0% of the number of items and dollar value of equipment inventoried during the current fiscal year for Phase 37. The allocations developed from this model for FY26 are shown on Attachment VIII.

The Appropriation Act also included a \$5,240,458 supplemental allocation for Research in FY26 and \$4,000,000 of Equipment Trust Fund earmarked for the Virginia Tech Patient Research Center, as detailed in Attachment VIII.

#### **Equipment Enhancement Program**

The \$2,000,000 equipment enhancement fund allocation for FY26 remains unchanged from FY25 to continue the university's maintenance of effort. The equipment enhancement funding continues to provide the Provost with \$1,600,000 and the nonacademic units with \$400,000 of equipment funds.

#### **TTIP Debt Funding**

Consistent with the Tech Talent Investment Program Memorandum of Understanding for the undergraduate and graduate programs, a one-time budget of \$21,465,489 in debt-funding is planned for FY26. The Tech Talent Investment Program allocations will be determined at a later date.

#### **Capital Outlay Project Authorizations**

The University will begin FY26 with \$1.16 billion of capital outlay authorizations. This includes \$1.07 billion of Education and General projects and \$90.4 million of Auxiliary enterprise projects. The Education and General projects are supported by state support and may contain a mix of self-generated revenue and private gifts. Auxiliary enterprise projects are supported entirely by self-generated revenue and private gifts.

For FY26, an estimated \$147 million of the \$1.16 billion of capital outlay authorizations will be spent. The major Education and General projects underway for 2025-26 include, Mitchell Hall, the New Business Building, and the Expansion of Virginia Tech - Carilion School of Medicine & Fralin Biomedical Research Institute. Attachment IX provides information concerning capital outlay projects. This attachment shows General Fund Appropriation and Nongeneral Fund Authorized capital projects for 2025-26 along with narrative descriptions of the projects.

The report was developed using expenditure information as of May 31, 2025. The estimated expenses for FY26 assume that each project will progress to a particular level of planning or construction by the end of the current fiscal year. If a project exceeds or lags the planned schedule, the fiscal year expenses will be affected accordingly. Thus, the actual expenses for FY25 and the balance available on June 30, 2025 may vary slightly from the report depending on the level of expenses recorded during the month of June 2025.

#### **On-line Budgets, Full Budgeting, and Budget Controls**

All components of the annual operating budgets will be entered into the University accounting system (Banner Finance) by the Budget Office through on-line entries in the accounting system and then distributed to departmental funds by operational managers. Revenue budgets for all revenues will be entered into the system at the same time

expenditure budgets are established. Revenue budgets and the drawdown of reserves, in limited cases, are always balanced with expenditure budgets. The budgeting process within the accounting system requires balanced adjustments to budgets during the year to ensure that the budgets remain balanced at all times. Depending upon the nature of each transaction, budget adjustments can be made by operating units or by the Budget Office. Increases to the overall program expenditure authority must be supported by projected increases in revenue or an authorized drawdown of reserves and be approved by the Chief Operating Officer prior to entry into the system.

As in prior years, the Controller's Office will fully implement the process of non-sufficient funds checking during the year. In the university's decentralized budget environment, this process provides greater assurance of the fiscal integrity of the accounting and budgeting processes, at both the central and operating unit levels. Implementation of non-sufficient funds checking will be reinstated after a reasonable time has been provided to fully distribute budgets within the system.

### **Fiscal Officer Review and Distribution of the Base Budgets**

To the extent possible, the Budget Office reviewed a draft of the appropriate sections of the Authorized Budget Document with the fiscal officer for each budget responsibility center. This review provides the opportunity for an explanation of decisions made within the budgets and to identify and correct discrepancies. For the current year, reviews were conducted with most of the fiscal officers and some corrections were implemented. During the summer of 2025, the Budget Office will work with the fiscal officers to address any questions or concerns not identified during the review of the draft documents.

Copies of this Authorized Budget Document will be distributed electronically to the vice presidents, deans, and fiscal officers. A copy of this document is available on the web at [www.obfp.vt.edu](http://www.obfp.vt.edu).

Please let me know if you have any questions about the budgets.

## NARRATIVE DESCRIPTIONS OF CAPITAL PROJECTS

### Educational and General Projects:

Planning: Expand Virginia Tech-Carilion School of Medicine and Fralin Biomedical Research Institute: This planning project will design a new 100,000 GSF building for the VT-C School of Medicine and renovate 51,000 GSF of the existing School of Medicine and Research Institute building to be backfilled by the Fralin Biomedical Research Institute.

Improve Center Woods Complex: This project will demolish the existing 12 facilities that have surpassed their useful life and construct 25,900 GSF of research laboratories, research support spaces, equipment storage and offices.

Improve Campus Accessibility: This project improves pedestrian connectors to ensure accessible service in the southeastern zone of campus.

Planning: College of Veterinary Medicine Teaching Hospital Renovation & Expansion: This planning project will design a new 32,000 GSF addition and 25,000 GSF renovation for the College of Veterinary Medicine Teaching Hospital's academic program.

Planning: Improvements to Eastern Shore AREC: This planning project will design a 13,500 GSF services complex to support research at the Eastern Shore AREC and renovate the 14,000 GSF main building.

Planning: Repair Derring Hall Envelope: This planning project will design a repair solution for the exterior envelope of Derring Hall.

Planning: Rescue Squad Facility: This planning project will design a new 12,500 gross square foot facility for the Virginia Tech Rescue Squad.

Maintenance Reserve: Since 1982, the Commonwealth has allocated General Fund support for preserving and extending the useful life of state-owned E&G facilities. This ongoing project covers a wide range of building and campus infrastructure repair and replacement work.

New Business Building: This project will design a 92,300 GSF building for the Pamplin College of Business.

Livestock & Poultry Research Facilities, Phase I: This project is for the first of two phases to renew the existing facilities for the livestock and poultry programs. This first phase includes an approximate total scope of 126,000 GSF of facilities at the Blacksburg campus and three nearby university production and research farms.

Building Envelope Improvements: This project will complete envelope improvements to four buildings.

Life, Health, Safety, Accessibility, & Code Compliance: This project improves pedestrian connectors to ensure accessible service in the North Academic District.

Mitchell Hall (Replace Randolph Hall): This project replaces Randolph Hall with an approximately 285,500 GSF building to accommodate the instruction and research programs of Computer Science, Aerospace & Ocean Engineering, Chemical Engineering, Mechanical Engineering, and Engineering Education.

Equipment for Workforce Development: This project supports space and equipment purchases for the instructional programs associated with the Tech Talent Investment Program.

Undergraduate Science Laboratory Building: This project will build a new 102,000 GSF state of the art science laboratory building adjacent to the new Classroom Building and West Campus Drive.

## Educational and General Projects Continued:

Innovation Campus – Academic Building: This project is a new 300,000 GSF academic building as part of the Innovation Campus in Alexandria Virginia.

## Auxiliary Enterprises Projects:

*(The following projects are supported by revenues from overhead, auxiliary enterprise operations, and private gifts donated for specific uses.)*

Maintenance Reserve: The auxiliary Maintenance Reserve program was initiated in 1994 to preserve and extend the useful life of auxiliary enterprise facilities. This project covers a wide range of building infrastructure repair and replacement work. The resources to support this program are provided by the auxiliary units.

Student Wellness Improvements: This project includes renovations and refurbishments to War Memorial Hall.

Football Locker Room Renovation: This project renovates approximately 4,200 GSF within the Jamerson Athletic Facility to provide state-of-the-art hydrotherapy suite along with needed restroom and shower improvements in the player's locker room.
